Price List No. 648

June, 1948

*A bird's eye view of Wisconsin's Greatest
Nursery at Waterloo, Wisconsin.*

The home of good nursery stock
that's guaranteed to grow—the
largest assortment of first class
stock in the northwest.

McKAY NURSERY CO.

MADISON, WISCONSIN

Plant These Fine New Varieties

**—EVERY ORCHARD SHOULD HAVE
SOME OF THEM**

BEACON—A Beacon-red, quality fruit of
Duchess season, that keeps a month
longer.

MINNESOTA 790—A great cooking apple,
of dessert quality. Very large, dark
red, long keeper.

MINJON—The "Minnesota Jonathan," won-
derful for eating, bright, all-red. Keeps
'til Christmas.

PERKINS—A long keeping dessert apple,
rich red fruit. Very popular.

FIRESIDE—A prize winner from Minnesota
Experiment Station. Juicy and sweet
for winter use.

PRAIRIE SPY—This beautiful red apple,
keeping until June, is of exceptional
high quality.

CHESTNUT CRAB—Very similar to Whitney
but of better quality, keeps much
longer without getting mealy.

Customer Satisfaction

THE SUCCESS of the McKay Nursery Company and of McKay representatives is based on the soundness of this formula which has been proved over a period of nearly half a century.

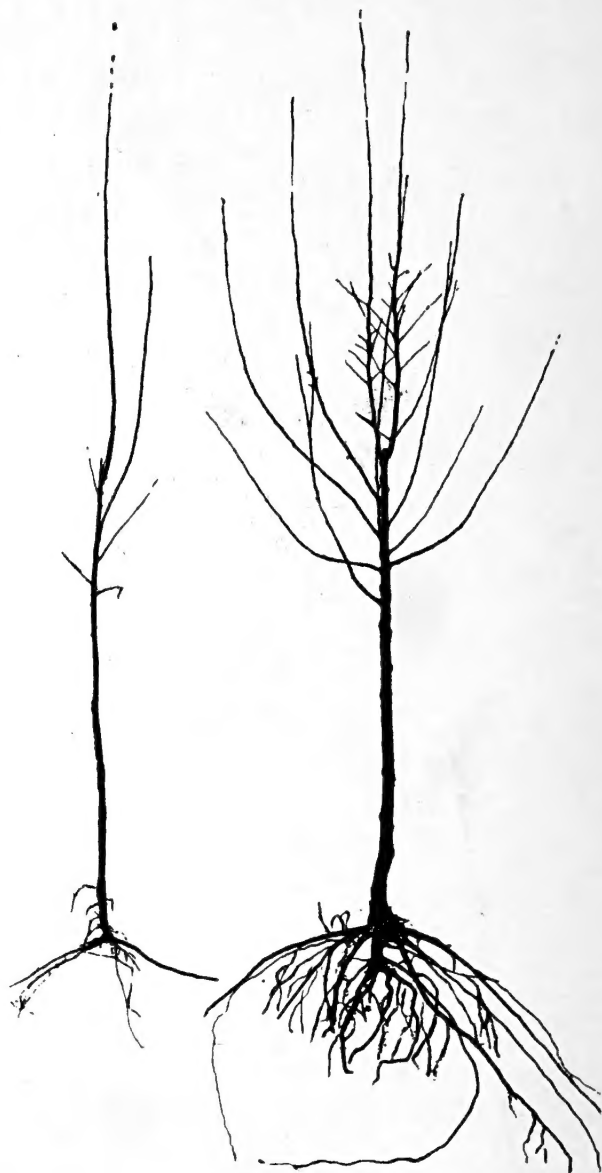

All prices quoted herein are for first class stock of the grades specified, well packed and delivered in good condition, charges paid.

Six sell at the dozen rates, fifty at the hundred rates unless otherwise specified.

McKay representatives are urged to help spread the sound gospel that "nursery stock which doesn't grow is expensive at any price" and to maintain the quality and helpfulness of their personal contact service at all times on a par with the quality of McKay offerings.

We are careful to have all stock correctly labeled, and the McKay Nursery Company will replace on satisfactory proof all stock that may prove untrue to the description under which it is sold, or, at its option, may refund the amount paid therefor; but in no case shall they be liable for any sum greater than the amount originally received for said stock.

**"What a whale of a difference
a few cents make!"**

Here you will see an actual photograph of a McKay standard size (5-6 ft.) fruit tree, also a Photograph of a typical fruit tree put out by the average mail order concern. Make your own comparison. Note the sturdy trunk, the well developed top and the heavy root system—all characteristic of McKay trees. Then look at the inferior type. You're bound to conclude that the best is the cheapest when it comes to buying stock. Why buy small, poorly developed stock when you can get McKay quality at the low prices contained in this Price List. Remember that nursery stock which doesn't grow is expensive at any price. The small amount you pay for vigorous, well developed stock is soon forgotten when it brings you a hundred-fold return on your investment.

When more than one variety is desired, the price indicated for the quantity of each variety wanted is used. For example—an order for 50 Catskill and 50 Premier would cost \$6.50.

McKAY SHADE AND ORNAMENTAL TREES

To avoid any misunderstanding regarding sizes and grades of trees we make the following explanations: The 6-8 ft. grade takes in trees which are 6 ft. and over and up to 8 ft., but does not include the 8 ft. trees. For illustration: In case the planter desires an 8 ft. tree it will be necessary to purchase the 8-10 ft. size. This also applies to trees sold by caliper. The size of trees sold by diameter is measured six inches above the roots.

		Each	Per 12
Ash, White	6- 8 ft.	\$3.00	\$30.00
Ash, White	8-10 ft.	3.50	36.00
Birch, Am. White (Canoe)	4- 5 ft.	2.50	-----

McKAY EVERGREENS

All nursery grown, bushy, transplanted stock.

We find that many purchasers do not handle Evergreens properly for successful results. Therefore, we do not make any free replacement on this class of stock. Replacements will be made at one-half ($\frac{1}{2}$) our regular retail price.

The following are for hedges and windbreaks. They are dug without a ball of dirt and the roots are carefully wrapped in wet packing material.

IF YOU WANT A BEAUTIFUL HEDGE, PLANT
McKAY HEDGING SHRUBS

Privet

Barberry

The above picture shows a comparison between McKay's Privet and Barberry hedging plants and those put out by the average mail order house and department store. The heavily branched, well rooted, transplanted stock furnished McKay customers is so far superior to the spindly, poorly rooted specimens shown beside them that you will readily realize this stock is expensive at any price, especially so, when you can buy McKay Quality Stock at the prices in this price list. Hedging material such as we supply quickly makes a fine, full hedge instead of the thin open type.

McKAY FLOWERING SHRUBS

Well grown and of suitable size for transplanting

CLASS A

2-3 ft., \$1.25 ea.; 3 for \$3.60; \$14.00 per 12; \$105.00 per 100

3-4 ft., \$1.50 ea.; 3 for \$4.25; \$16.00 per 12; \$120.00 per 100

Varieties starred () cannot be supplied in 3-4 ft. sizes
The more dwarf shrubs will be supplied in the sizes specified and
the 2-3' price will apply on these items.

Barberry Red Leaf 15-18 in.	Lilac Com. White
*Barberry Thunbergii	Philadelphus, Cor.
Buckthorn Glossy	Philadelphus Grand.
Butterfly Bush	Philadelphus, Lemoine
(Semi-Hardy)	Privet, Regals
Coralberry Chenaulti	*Rosa Rugosa Rubra 18-24 in.
Coralberry (Indian Currant)	Rose Setigera
*Deutzia, Lemoine	Russian Olive
Dogwood Baileyi (Red)	Snowberry Chenaulti
Dogwood, Lutea (Golden)	Snowberry White
Dogwood, Siberian (Red)	Spirea, Arguta
Elder, American	*Spirea A. W. 18-24 in.
Elder, Golden	Spirea Billardi
Elder, Cut Leaf	*Spirea Froebelli 18-24 in.
Forsythia Fortunei	Spirea, Opulifolia
Forsythia Intermedia	Spirea Opulifolia Nana
Forsythia Ovata	(Dwarf Ninebark)
Honeysuckle Belle	Spirea Van Houttei
Albida (White)	Sumac Fragrant 18-24 in.
Honeysuckle, Morrowi	Sumac, Smooth
Honeysuckle Pink Tart.	Sumac, Staghorn
Honeysuckle Red Tart.	Tamarix Amurense
Lilac, Com. Purple	

TREE FORM SHRUBS

Cornus (Dogwood)	Hydrangea Arbor	Privet
Currant Alpine		Viburnums

COMPARE THIS SHRUBBERY AND BE YOUR OWN JUDGE

The shrubbery shown on the right will bring the results desired, the results you have a right to expect. Compare this with the light, poorly branched shrub which is so typical of that put out by the average jobber or mail order concern. McKay shrubbery is all two and three years old, bushy, well developed stock, because the McKay Nursery Company is interested in winning your patronage year after year. "What a whale of a difference just a few cents make!"

McKAY ROSES

Our Roses are strong two year plants, grown out of doors, well rooted, hardy, first-class, and are more valuable than plants sent out by many mail order houses or sold by department stores at cheap prices.

The letter after each name indicates the color according to the following key: (B) for Blush; (C) for Crimson; (P) for Pink; (R) for Red; (W) for White; (Y) for Yellow; (OR) for Orange Red.

CLIMBING—CLASS A

\$1.65 each

Crimson Rambler (C)	Excelsa (R)
Dorothy Perkins (P)	Gardenia (Yellow Rambler)
Dr. Van Fleet (P)	

CLIMBING—CLASS B

\$1.90 each

Climbing Am. Beauty (R)	Paul's Scarlet Climber (C)
Mary Wallace (P)	Primrose (Y)

ROSA RUGOSA RUBRA (R) (Single)

\$1.25 each; 3 for \$3.60; \$14.00 per 12; \$105.00 per 100

HYBRID ROSA RUGOSA CLASS A

\$1.25 each; 3 for \$3.60; \$14.00 per 12

Hansa (R)	Belle Poitevine (P)
Sir Thos. Lipton (W)	

CLASS B

\$1.75 each; \$19.00 per 12

Agnes (a new Yellow)	F. J. Grootendorst (R)
Conrad F. Meyer (P)	Pink Grootendorst
Sarah Van Fleet (P)	

GROOTENDORST SUPREME

An improved F. J. Grootendorst, darker red.

\$2.00 each; \$20.00 per 12

Baby Rambler, Pink	Baby Rambler, Yellow

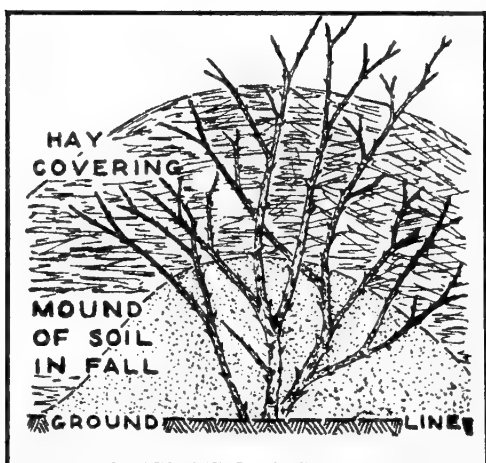

Else Paulsen (P)
Improved Lafayette (R)

NURSERY STOCK THAT DOESN'T GROW IS EXPENSIVE AT ANY PRICE

The rose at the right is good illustration of the strong, healthy, field grown stock that McKay Nursery Company furnishes its customers. Compare it with the one on the left which is typical of the kind of stock handled by the average mail order house and department store. This comparison will convince you that the best is the cheapest. Nursery stock that doesn't grow is expensive at any price. It is evident McKay roses invariably bloom the first year.

WINTERING ROSES

In our severe climate, **TEA, PERPETUAL and POLYANTHA ROSES** should be carefully protected for the winter. To do this, mound earth around the plant to a height of 6 or 8 inches, late in fall and before the ground freezes. After the ground has frozen (probably in December), cover the entire Rose bed with hay or straw from 18 to 24 inches deep. This will protect the ground from

alternate thawing and freezing, and cut down evaporation of moisture from the Rose canes. In the spring the mulch and mound of earth are removed and the Roses pruned.

PLANTING DISTANCES FOR ROSES

Hybrid Teas: 18 to 20 inches apart.

Hybrid Perpetuals: 2 feet apart.

Polyanthas: 12 to 18 inches apart.

Rugosas: 3 to 4 feet apart.

Native Roses, etc.: 3 to 4 feet apart.

McKAY PEONIES

Peonies can be sold for either spring or fall delivery. However, Peonies will do better planted in the fall and should be sold that way, if the customer is planting any number. We offer good strong plants with three to five eyes.

UNNAMED VARIETIES

\$1.25 each; \$14.00 per 12

Red

White

Pink

GOOD NAMED VARIETIES

\$1.50 each; \$16.00 per 12

American Beauty (Pink)
Duchess de Nemours (White)

PERENNIALS—The shortage of labor makes it necessary for us to discontinue selling all perennials and bulbs (except peonies).

NUMBER OF TREES OR PLANTS ON AN ACRE

2 feet each way	10,890
3 feet each way	4,840
4 feet each way	2,723
5 feet each way	1,742
6 feet each way	1,210
8 feet each way	680
10 feet each way	430
12 feet each way	302
15 feet each way	194
18 feet each way	135
20 feet each way	110
25 feet each way	70
30 feet each way	48

Rule — Multiply the distance in feet between the rows by the distance the plants are apart in the rows and the product will be the number of square feet for each plant or hill; which divided into the number of square feet in an acre (43,560) will give the number of trees to an acre.

SUITABLE DISTANCES FOR PLANTING IN THE NORTHWEST

Apples, standard	25 to 30 feet
Pears, standard	18 to 24 feet
Pears, dwarf	12 to 15 feet
Cherries and Plums	20 to 25 feet
Currants and Gooseberries	4 to 6 feet
Grapes	6 to 8 feet
Raspberries and Blackberries	3 to 6 feet
Strawberries	1½ by 3½ feet

When You Buy On PRICE Alone

You Can Never Be Sure!

● It's unwise to pay too much, but it is worse to pay too little. When you pay too much you lose a little money—that's all; but when you pay too little you sometimes lose everything because the thing you bought is incapable of doing the thing it was bought to do. ● The common law of business balance prohibits paying a little and getting a lot. It can't be done. If you deal with the lowest bidder, it is well to add something for the risk you run, and if you do that, you have enough to BUY QUALITY.

THEY ARE WORTH SEEING!

Wisconsin's Greatest Nursery

OUR GUARANTEE

When stock is received and paid for on day of delivery, at full retail price, we guarantee, providing reasonable care is given by the purchaser, to replace entirely free of charge all nursery stock which fails to grow, providing we are notified before August 1st, following delivery, excepting Evergreen Trees, which will be replaced at one-half ($1/2$) our regular price.
